

*The Images of the Virgin Mary at Gethsemane*

*We must always carry in our minds an image of the Virgn Mary, just as it was placed on hard stones.*

As I heard from the mouth of many who were there, in the holy place of Gethsemane images of the Mother of God were found, which had not been painted

nor were they carved, so help me God, but they bore the likeness of our Lady of beauty with her son, in a perfect likeness.

And so she made them shine there and be seen, for which we must truly believe that she is lord of all things, with power to make dark things light.

God saw fit to create these images in stone to show us that all living things must worship his mother, as he came down from heaven to take human flesh in her.
