

Copying files from the flow cytometer to mac

1. Put files you want to copy in folder “put files in here” (on flow cytometer desktop)
2. In finder of Genome, choose Go>Connect to server
3. type in

smb://129.67.27.221

4. log in as guest
5. choose volume FLOWCYTO to see files from step 1,
(or whatever shared volume you want to access).
